**Patient Consent for Treatment During COVID-19 Pandemic**

I .....(patient name) understand that I am opting for an elective physiotherapy treatment.

I understand that the novel coronavirus, COVID-19, has been declared a worldwide pandemic by the World Health Organization and that COVID-19 is extremely contagious and is believed to spread by person-to-person contact; and, as a result, social distancing is recommended. This is not entirely possible with my proposed treatment, however, I am satisfied that safety measures are in place to minimise risk as much as possible, and patient contact will be kept to an absolute minimum in line with medical need. \_\_\_\_\_ (initials)

I understand that Castle Physiotherapy are closely monitoring the COVID-19 situation and have put in place reasonable preventative measures aimed to reduce the spread of COVID-19. However, given the nature of the virus, I understand there is an inherent risk of becoming infected with COVID-19 by virtue of proceeding with treatment. I hereby acknowledge and assume the risk of becoming infected with COVID-19 through this elective physiotherapy treatment and I give my express permission to proceed. \_\_\_\_\_ (initials)

I understand the COVID-19 virus has a long incubation period during which carriers of the virus may not show symptoms and still be highly contagious. I understand that COVID-19 can cause additional health risks, some of which may not currently be known at this time, in addition to those risks associated with the medical itself. \_\_\_\_\_ (initials)

I have been given the option to defer my medical treatment to a later date. However, I understand all the potential risks, including but not limited to the potential short-term and long-term complications related to COVID-19, and I would like to proceed with my desired medical treatment\_\_\_\_\_ (initials)
